About CELPIP

The Canadian English Language Proficiency Index Program (CELPIP) is a general English language proficiency test.

The CELPIP Test allows test takers to demonstrate their ability to function in English. The test clearly, accurately, and precisely assesses a test taker's English abilities in a variety of everyday situations, such as communicating with co-workers and superiors in the workplace, interacting with friends, understanding newscasts, and interpreting and responding to written materials.

There are two versions of the CELPIP Test: the CELPIP-General Test and the CELPIP-General LS Test. The CELPIP-General Test assesses functional Listening, Reading, Writing, and Speaking skills. In addition to being accepted by IRCC, the CELPIP-General Test is accepted by professional organizations including the Real Estate Council of British Columbia and Immigration Consultants of Canada Regulatory Council. The CELPIP-General LS Test assesses functional Listening and Speaking proficiency.

CELPIP Scores and Identity Verification System

The CELPIP Scores and Identity Verification System (SIVS) is a simple and fast way for organizations to verify an individual's CELPIP scores and identity, and provides administrative personnel with an effective tool for score verification.

Benefits of CELPIP SIVS

- The CELPIP SIVS allows for organizations to directly verify an individual's scores with the CELPIP Office, without relying on paper score reports.
- In addition, the CELPIP SIVS also allows organizations to subscribe to the Bulk Scores Download feature, which allows for organizations to automatically receive all scores designated to that institution.

Sample Score Report

The screenshot displays the CELPIP SIVS web interface. On the left is a red sidebar with navigation links: MANAGE USERS, VERIFY SCORES, BULK SCORES, and ACTIVITY LOG. The main content area is divided into two sections. The left section, titled 'Verify CELPIP Scores', contains a form with input fields for 'Registration Number' and 'PIN', and buttons for 'VIEW' and 'DOWNLOAD'. Below the form is a note: 'The Registration Number and PIN can be found on the CELPIP Official Score Report.' The right section, titled 'Identity Information', lists fields for Last Name, First Name, Date of Birth, Signature, Picture, Scanned Document 1, Scanned Document 2, and Voice Sample, each with a 'View' link. On the right side of the interface is a sample 'CELPIP OFFICIAL SCORE REPORT' for Jane Smith. The report includes a photo of Jane Smith, her registration number (1234567), and PIN (1234567). It also lists test information: Test Date (September 6, 2018), Test Centre (Paragon Testing Enterprises, Vancouver), and Printed date (September 14, 2018). The bottom section of the report shows 'CELPIP-General Test Results' with a 'Listening' section and a score of 11.

CELPIP Band Scores

Each component of the CELPIP-General Test and the CELPIP-General LS Test is given a CELPIP level. Below is a chart of each CELPIP level and its corresponding description. CELPIP Score	CLB Level	CELPIP Score Descriptor

11	11	Advanced proficiency in workplace and community contexts
10	10	Highly effective proficiency in workplace and community contexts

7	7	Adequate proficiency in workplace and community contexts
6	6	Developing proficiency in workplace and community contexts
5	5	Acquiring proficiency in workplace and community contexts
4	4	Adequate proficiency for daily life activities
3	3	Some proficiency in limited contexts
M	0, 1, 2	Minimal proficiency or insufficient information to assess
NA	/	Not Administered: test taker did not receive this test component

CLB Explained

The CLB are a descriptive scale of English language ability. There are 12 benchmarks (or reference points) along a continuum from advanced (CLB 12) to basic (CLB 1) language ability. The benchmarks describe adult learners of English communicative competence and ability to perform tasks that require the use of language knowledge and language skills. The CLB provide a common framework to describe and measure communicative language ability.

The CELPIP tests can be used to identify candidates' English language abilities according to the CLB. The link between the CELPIP tests and CLB was established through a standard setting exercise. Standard setting is an extensive, research-based process. Language experts work with testing professionals to identify what language learners need to be able to do at each performance level, such as CLB 8. The experts then analyze the test in detail and determine what level of performance a test taker needs to demonstrate for each CELPIP level. This process has established a defensible link between the CLB and CELPIP test scores.

Paragon provides a variety of other resources that help you understand the CELPIP. Visit www.celPIP.ca to find more information about the CELPIP tests.
